

WOMEN FOR TOM MALINOWSKI

As women who have been deeply involved in business, government, health, science, education, the environment, the arts and grassroots organizations, we support Tom Malinowski for Congress in New Jersey's 7th Congressional District.

We are profoundly troubled by the direction in which President Trump and his Congressional enablers are taking our country. But they cannot continue their destructive policies if we take back Congress in 2018. We support Tom because he is the Democratic candidate best equipped to win this House seat, and the one best able to get results for the people of this district from day one when he gets to Washington.

We also support Tom because he's fought for women – and for the rights of all people – throughout his long career in public life, and we know he'll bring that same commitment to fighting for us here in New Jersey. For 25 years, he defended America's values at home and represented them to the rest of the world. As a leader in the State Department under President Obama, Tom worked to protect women and girls in Iraq and Syria threatened by ISIS, and he mobilized our government to support courageous women fighting for political representation in Afghanistan. He fought to ensure that no American aid went to foreign militaries that committed violence against women. Tom will work just as hard to protect women's access to reproductive health care in Dover, Union, Somerville and Flemington. He will fight, too, to demand equal pay for equal work, for paid family leave and affordable child care. Tom has shown us that he can bring the national attention and support we need to defeat Leonard Lance in the 7th District and help win back the House for Democrats. He has the experience to serve and to lead effectively on the issues that matter most to us – making health care affordable and accessible, protecting the environment, investing in our infrastructure, reforming our tax code, and protecting America and the rights of all Americans.

Tom has stood with us, and we stand with him. We hope that you will join us.

Caroline Armstrong, Lambertville, NJ
